

Our Mission: BIND provides tools and a bridge of support to adult brain injury survivors so they can reconnect into life, the community and workplace.

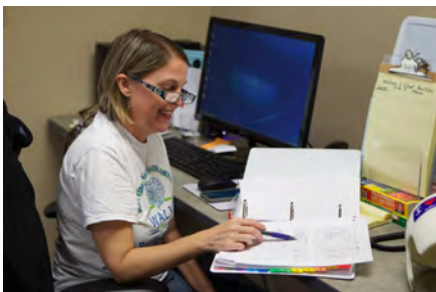

What is BIND?

BIND is a nonprofit community center for adults living with the effects of an acquired brain injury. The program, called Clubhouse, exists to support the realization of meaningful and productive life after an acquired brain injury. BIND operates the first and only Brain Injury Clubhouse in the state of Texas and is a proud member of the International Brain Injury Clubhouse Alliance (IBICA).

Employment Services at BIND

Staff and program members work together to run all aspects of a clubhouse program, from answering phones, developing the newsletter and cleaning the facility - creating an ideal environment to practice skills necessary for returning to the workplace. Work readiness programming includes an evaluation of prior work history, benefits assessment, and a strengths and interests inventory. Members receive structured training in addition to participating in the typical work-ordered day at BIND through PSAT (Personal Social Adjustment Training) and SE (Supported Employment) services aim at job placement and stability for 6 months. Both services are provided at BIND in collaboration with the member's Texas Workforce Commission counselor.*

Membership Qualifications

- 18 years of age or older
- Independent with self-care
- Not a threat to self or others
- Have a documented brain injury
- Motivated to return to work
